

Pullman On-Site Calibrations

Pullman offer on-site calibrations in the fields of
**Electrical/Microwave/LF and General Test and Measuring
Instruments.**

**Established over twenty five years giving confidence and reliability
in meeting calibration needs.**

Ten steps to solving your calibration challenges and requirements:

- TEMPERATURE UKAS NO 0683 OR CLASS ONE - SITE
- ELECTRICAL CLASS ONE ELECTRICAL/MICROWAVE LF - SITE
- GENERAL INSTRUMENTATION CLASS ONE - SITE
- DIMENSIONAL AND OTHER CLASS ONE CALIBRATIONS - WORKSHOP
- UKAS NO 0683 ELECTRICAL AT PULLMANS LABORATORY
- MAINTENANCE OF CALIBRATION RECORDS
- REPAIR AND SERVICE OF EQUIPMENTS - SITE & WORKSHOP
- SUPPLY OF NEW AND REPLACEMENT EQUIPMENTS
- COST EFFECTIVE SERVICES UNDER ONE ROOF
- FULL TECHNICAL SUPPORT

On-Site Calibrations

Experience in the field covers single application of multiple calibrations, for fixed installations and portable equipments. All areas of industry covered including: **Catering, Food industry, HVAC, Hospitals, Industrial, Manufacturing, Medical, Military Installations, Pharmaceutical, P.A.T. Training, Rail industries, Utilities & others**

Temperature UKAS - Site

UKAS calibrations on full systems including the indicator and sensor/thermocouple (see www.ukas.org). Plus class one calibrations, covering all temperature measuring and sensing instrumentation, fully traceable to national and international standards.

Electrical Class One Electrical/Microwave LF - Site

Fully traceable to national and International standards. All types of testing and measuring instruments from Multimeters to Tachometers.

General Class One - Site

Fully traceable to national and International standards. Acoustic calibration, Crimp tools to 100ton, Gas analysers portable and static, Manometers, Pressure Gauges, Sound Meters, Torque equipments, Weighing Scales and others.

Dimensional and other calibrations

Calibrations carried out at Pullman Instruments workshops including, Air Flow, Air Flow Systems, Anemometers, Callipers, Crimp tools, Humidity, Light Meters, Loggers, Micrometers, Vacuum and others. Fully traceable to national and international standards.

UKAS Electrical at Pullmans Laboratory

Covering the standard range of instrumentation as listed against our UKAS accreditation 0683. (see www.ukas.org).

Maintenance of Calibration Records

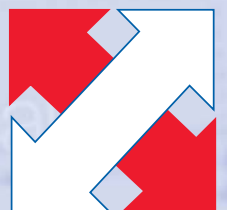

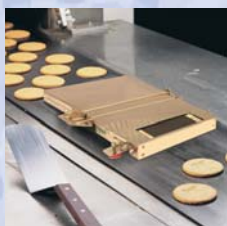

Fully automated Pro Cal calibration system, enables the calibration, storage and recall of all calibrations. Customers instruments listed and calibration reports stored for five years.

Repair, Service and Supply of Equipments

In-House repairs and serviced of instruments with over twenty five years of experience, supported by many major manufacturers. Large technical library, backup stores and ordering systems. Quotations for uneconomical instruments.

Cost effective services under one roof with Technical support

On-Site calibrations virtually eliminate, or minimise down time in production, saving cost in down time and administration. With a repair and sales facility instant decisions are available. Pullman and manufacturers technical support available.
